Annual Santa Claus Visit

Attention residents! We have a special visitor taking time out of his busy schedule to come and visit you just before the holiday. The Lake of the Woods Volunteer Fire & Rescue Company Inc. will continue its tradition this year as Santa Claus will be visiting the various residents, and businesses, located in the Locust Grove, Germanna and Wilderness areas of Eastern Orange County along Route 3 and Route 20.

That is right, Santa Claus is once again partnering with your local volunteer fire and rescue members to visit the community on the evenings from December 18-20, 2020.

Of course, this holiday season is a little bit different than in years' past. Because of the pandemic, Santa will be unable to stop and take pictures or interact with community members. Even though he cannot meet with you all personally, Santa is so excited to spend time passing through our community and greeting all of you. Santa and the fire department have developed a route that will be posted to our website and our Facebook, allowing us the most efficient way to pass by and give you a big, jolly hello!

"We have heard from many residents that this tradition is one that they look forward to each year and that this year especially having Santa visit was very important to the community, adults and children alike," said Fire Chief Mike Cianci.

Please understand that, due to a variety of safety constraints, Santa and our firefighters will not be able to stop and interact. Instead, you will get to see them in the big red fire truck as they wave hello all along the way. We ask that you please keep in mind the CDC's COVID-19 distancing guidelines and ask that you do not create a traffic hazard by standing in or parking in the road.

We hope that Santa's visit makes your holiday a little brighter and lifts your spirit as we get ready to bring the year to a close. Please be sure to keep an eye on our Facebook and/or website for further information and schedule at: <https://lowfr29.com/>. We will see you all soon!

The Lake of the Woods Volunteer Fire & Rescue Company responded to 899 calls for service in 2019 and serves the various residents, commercial businesses, houses of worship and academic institutions located in the Locust Grove, Germanna and Wilderness areas of Eastern Orange County along Route 3 and Route 20.
